

KAUSTUBH MUDE

EDA | Power BI | SQL | Python | Machine Learning

Pune, Maharashtra | +91 9309573024 | kaustubhmude05@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data-driven professional skilled in Python, SQL, Power BI, and Machine Learning, with hands-on training and project experience in Exploratory Data Analysis (EDA), business intelligence, and predictive modeling. Skilled in data cleaning, exploratory analysis, SQL querying, dashboard development, DAX, Power Query, and data visualization, with a working foundation in machine learning fundamentals and model evaluation. Experienced in working with real-world datasets to identify patterns, generate data-driven insights, build predictive models, and develop interactive dashboards and reports that support business decision-making.

EDUCATION

B.Tech In Information Technology
KITS (RTMN University) — CGPA : 6.50

Nov.2022 – May 2026

WORK EXPERIENCE

Data Science Intern | Hisan Lab Pvt. Ltd.

Feb.2026 – July 2026

- Assisted in data cleaning, preprocessing, and validation to improve data quality and ensure accurate analysis.
- Developed interactive Power BI dashboards and reports to visualize key business metrics and support decision-making
- Utilized Microsoft Excel (Pivot Tables, VLOOKUP, and formulas) to organize, analyze, and summarize large datasets
- Created data visualizations using Power BI and Matplotlib to identify trends, patterns, and actionable insights

CERTIFICATIONS

- Data Analytics — Deloitte
- GenAI Powered Data Analytics — TATA

TECHNICAL SKILLS

Programming: Python, SQL

Data Analysis: Pandas, NumPy, Data Cleaning, Exploratory Data Analysis

Machine Learning: Scikit-learn, Classification, Regression, Supervised Learning, Unsupervised Learning, Ensemble Learning

Visualization & BI: Power BI, DAX, Power Query, Data Modeling, Excel, Matplotlib, Seaborn, Streamlit

Database & Tools: MySQL, Jupyter Notebook, VS Code, Google Colab, GitHub

PROJECTS

OpinionMetrix AI | *Python, ML, NLP, Sentiment Analysis, Jupyter Notebook*

- Developed a transformer-based NLP model for customer review sentiment analysis.
- Classified reviews into Positive, Neutral, and Negative sentiment categories.
- Implemented real-time sentiment prediction with confidence scores

Customer Shopping Analysis | *Python, Scikit-learn, Pandas, Flask, Jupyter Notebook*

- Analyzed 3,900+ customer transactions using Python, PostgreSQL, and Power BI.
- Performed data cleaning, feature engineering, and exploratory data analysis (EDA) using Pandas.
- Developed SQL queries to analyze customer behavior, revenue trends, and product performance.

Car Price Prediction | *Python, Scikit-learn, Pandas, Flask, Jupyter Notebook*

- Built a machine learning regression model to estimate used car prices using Python and Scikit-learn.
- Applied data preprocessing techniques, including missing value handling, feature encoding, and scaling.
- Integrated the model with Flask to enable real-time price prediction via a web application

SOFT SKILLS

Analytical Thinking • Problem Solving • Communication • Teamwork • Time Management
